

CHILDREN'S PROGRAMS FAQ

In accordance with the guidance for places of worship, our children's programs are operating according to the [Guidance for Day Camp](#) document.

It is important to understand that physical distancing cannot always be maintained with preschool and elementary children, and preschool children cannot wear masks safely. Additional health screening, including temperature checks, will be performed before children are accepted into programs to reduce the risk of transmission.

Nursery care (0 through age 2) will not be provided. The café will have seating for children who are unable to sit in the service.

What precautions are you taking?

- Once registered in the lobby, children will be immediately dropped off for their programs. They will not sit in the auditorium with you.
- All staff and volunteers will be wearing masks, and elementary children will be required to wear them. Preschool children who can safely wear them are encouraged to do so.
- Activities and teaching activities will not involve or encourage touching, crowding or shared supplies or equipment.
- Additional personal space will be provided for children, such as fewer chairs per table and increased spacing.
- Furniture, frequently touched surfaces, washrooms, toys and supplies will be disinfected between each service.

Where do I register my children?

After you enter the building and have your pre-registration QR code scanned, you will be directed to the lobby children's registration kiosks. Volunteers will then complete the screening process and give your child(ren) their name tags.

After I register, where will I drop off my child?

Preschool children will be dropped off at the bottom of the preschool stairs in the lobby, where a friendly volunteer will lead them up the stairs and into the preschool rooms. Elementary children will proceed to the gym doors, where they will be met by a volunteer and taken into the gym.

You may then return to the lobby and will be seated by an usher in the auditorium.

After the service, where do I collect my child(ren)?

To reduce crowding, we are implementing a one-way traffic flow. Please collect your preschool child(ren) first, then proceed to the gym to collect your elementary child(ren).

Preschool children will be collected from the nursery counter. If you do not have any children in the elementary programs, you will be directed to leave the building by entrance 7 on the north side of the building.

Elementary children will be collected from the gymnasium. Parents picking up elementary children will leave the facility through the gym emergency exit doors on the north east corner of the building.

To prevent crowding, we ask that only one parent collect child(ren), and families plan to meet after the service at their vehicle.
